## EXPERIENCE

### Mern stack Intern

#### mentorow

oct 2023 – july 2024

- Designed and Developed a responsive React-based website for an educational institution, featuring course and tutor details,
- Worked with a team to design and build a 'Contact Us' page and other UI components using React, React Router, and Tailwind CSS.
- I work here with my core stack: MongoDB, React, Node.js, Express.js, Tailwind CSS, and Figma for design. I use Unix/Linux and AWS for hosting, including S3 buckets.
- [mentrow-app->](#)

### Full stack developer/ trainer

#### Dexpro Innovations

august 2024 – present

- Developing an automated web application platform that consolidates various products under one interface, utilizing front-end technologies such as React, Vanilla CSS, and Tailwind CSS.
- Trainer at edure, a Drexpo Training Institute, where I mentor aspiring full-stack developers, delivering comprehensive training in modern development practices.
- [edure web->](#)
